EXPERIENCE

IntelDevs, Lahore — Software Engineer intern

JULY 2024 - SEPTEMBER 2024

Key Responsibilities:-

- Develop responsive web applications using HTML, CSS, Tailwind CSS, and JavaScript, ensuring cross-browser compatibility and mobile responsiveness.
- Collaborate with senior developers to implement user-friendly UI/UX designs, improving site usability and functionality.
- Optimize web performance by reducing load times and improving site speed through code optimization and image compression techniques.
- Work with version control systems, primarily Git, to manage project updates and maintain code quality.
- Participate in code reviews and debugging, improving application quality and fixing cross-browser compatibility issues.
- Integrate RESTful APIs to display dynamic content and enhance the user experience.
- Apply best practices in front-end development, including semantic HTML, modular CSS, and responsive design.
- Implement CSS and JavaScript animations and transitions to improve user engagement and visual appeal.
- Test and validate API responses using Postman to ensure accurate data integration for frontend features, improve data consistency, and troubleshoot API-related issues.

EDUCATION

VIRTUAL UNIVERSITY - LAHORE

BSc Computer Science (2021 - 2024)

SKILLS

LANGUAGES

JavaScript, C++, SQL

FRONTEND

HTML, CSS, Tailwind CSS,
[React.js](#), Redux, React-Router

BACKEND

[Node.js](#), [Express.js](#), MongoDB,
Mongoose

TOOLS

VS Code, Postman, Git, Github

PROJECTS

E-commerce Web

www.importexx.shop

React-based e-commerce platform uses Context API, Redux Toolkit, and Firebase for seamless shopping, real-time updates, and secure authentication. It offers a responsive interface for users and efficient product management for admin.

Blog App

A responsive React blog app with Tailwind CSS, featuring role-based authentication. Users can post blogs, while admins manage content and users. Axios handles secure backend communication.
